Economic Impact of
Aviation Activity

Vermont maintains a thriving aerospace and aviation industry, home to industry leaders such as GE Aviation and UTC Aerospace Systems, and an established, world-class supplier base of over 250 small and medium-sized enterprises (SMEs).

World-class primes, such as Airbus, Boeing, Lockheed Martin, and Northrop Grumman, rely on Vermont's manufacturers to design, build, and deliver the finest quality products with innovation, competitive advantage, and speed to market. The Boeing Company, alone, has 23 suppliers and vendors based in Vermont, supporting an estimated 2,800 jobs.
